

Team Savox - Project status - 2

Joel Salminen, Nidal Abu Raed, Teemu Hokkanen ja Ville Tele

Last week

- Meeting with the customer
- Team meeting
- Gathered requirements
- Stakeholder analysis
- Started gathering ideas for prototype
- Started to create first version of a prototype

Current week

- Multiple team meetings
 - Trying to get a unified vision to help create the prototype
 - Already made a couple of different prototypes to make this happen
- Using the methods from User Experience Design -course to refine our current design
- Top priority is to get the prototype ready for next week
 - Presentation of the prototype to the customer
- Also still working on some documentation that we haven't finished yet
 - Requirements

Next week

- Meeting with customer
 - Team meeting afterwards to decide our next steps
- Main goal is to at least catch up with the other groups
- Refining our design
- Finishing any unfinished work from before
- Getting development infrastructure ready for implementation phase (if we have time left)

Thank you!
